IMO FTPC Part 8

CLEANING AND MAINTENANCE INSTRUCTIONS

Thanks to the **AquaClean technology** incorporated into this fabric, you can use just water to clean occasional stains like wine, coffee, food, etc., and also the more stubborn stains on parts of the sofa that cannot be uncovered for washing.

It is advisable to use a vacuum regularly to remove dust.

Clean with water, in three easy steps:

1. Remove any excess product that has spilled on the fabric.
2. Apply water to the stain, either directly or using a paper tissue or an absorbent cloth, without making the upholstery too damp. Wait for a few seconds.
3. Press the stain with the paper tissue or cloth, then gently rub the fabric with circular strokes. If the stain does not disappear completely, repeat the process as many times as necessary.
